Fill the center of the machine with the supplied sugar only. Never fill the machine while it is spinning. (Use caution when refilling as spinner head is very hot and will cause burns). e Arou Tizona e Arou Tizona

e Arou izona e Arou izona

Do not overfill the spinner head with sugar. You can change colors of the sugar anytime without dumping the existing sugar, just pour a different color in the spinner head.

Set the Heat Level to about 3/4 as shown. More heat may be needed during cooler weather or when you first start using the machine. As the machine starts making cotton candy you may need to reduce the heat.

Turn on both switches and within a minute the sugar should start to spin out and stick to the netting. nce Around Arizona Bour Arizona Bour nce Around Arizona Bour nce Around Arizona Bour arce Around
